

CNC Operator @ Parsons Pipe Organ Builders — Canandaigua, NY

Parsons Pipe Organ Builders is seeking a **full-time CNC Operator** to join our team in Canandaigua, New York. The CNC Operator will work with our woodworking and manufacturing team to produce precision components for custom-built pipe organs.

This is an opportunity to work in a unique, hands-on manufacturing environment where **precision, craftsmanship, and attention to detail** are essential. Our CNC equipment is used to produce a wide variety of custom parts, so the position offers the opportunity to work on interesting and varied projects rather than repetitive production runs.

Responsibilities

- Operate CNC machinery to produce precision wood and other components.
- Read and interpret drawings, measurements, and job specifications.
- Set up machines, select appropriate tooling, and make adjustments as needed.
- Load and secure materials and monitor machining operations.
- Inspect finished parts for accuracy and quality.
- Perform basic machine maintenance and keep the work area clean and organized.
- Work closely with other members of the production team to ensure parts are completed accurately and on schedule.
- Assist with other woodworking and shop tasks as needed.

Qualifications

- Previous CNC operation experience preferred.
- Experience with woodworking or CNC woodworking equipment is a plus.
- Ability to read drawings and accurately work from measurements.
- Strong attention to detail and commitment to quality.
- Comfortable working with computers and learning new equipment and software.
- Ability to work independently while also being part of a team.
- Mechanical aptitude and good problem-solving skills.
- Experience with CNC programming, CAD/CAM software, or toolpath creation is a plus.

Ideal Candidate

The ideal candidate is accurate, organized, and comfortable turning sketches, measurements, and design information custom components. This position is best suited for someone who can work closely with designers and craftspeople on one-of-a-kind projects.

To apply: Please submit a résumé and/or a brief description of your CNC experience to info@parsonsortans.com.
